

HPS proudly serves the scientific community with high quality spectrometric standards and reference materials for the calibration of instruments, including, but not limited to, AAS, IC, ICP, ICP-MS, GC, and GC-MS.

We've Got Hand Sanitizer

80% Alcohol Hand Sanitizer

This hand sanitizer is made following FDA/WHO Guidelines with 80% alcohol content to kill 99.9% of bacteria, germs and viruses. Since no rinsing or drying is required, each application is fast and easy.

- Stop the spread of cross-contamination - no rinsing required
- Made in accordance with the World Health Organization (WHO) formulation
- Produced with zero non-essential additives
- Unscented
- **IMPORTANT:** Hand sanitizer will ship non-hazardous to the 48 contiguous states, otherwise hazardous shipping is required.

Description	Volume	Part #	List Price
